

## DR206 WATER HOSE GREEN

### 20 Bar

A robustly manufactured air and water hose designed specifically for mining industry air and water applications, particularly for underground operations which are subjected to very rough handling. This hose has been successfully servicing the Australian mining market for many years. It is also matched to the Type A, Surelocks and Type B air couplings and camlock couplings often used in this industry. It is also very well suited to the oil and gas industry and general contractors requiring a tougher utility hose.

<b>RUBBER MATERIAL</b>	SBR/NR
<b>TEMPERATURE</b>	-30°C to + 75°C
<b>MARKINGS</b>	Water is for green stripe or full green colour
<b>SAFETY FACTOR</b>	4:1
<b>COIL LENGTHS</b>	20 metres
