

## DR924 NITROGEN HOSE

### Heavy Duty for Nitrogen

A robustly manufactured nitrogen hose designed specifically for the process industry nitrogen applications, particularly for refineries. This hose has been successfully servicing the Australian refinery market for many years. It is also matched to the Type A, Surelocks and Type B air couplings and Single Lock and Dual lock quick release couplings often used in this industry. It is also very well suited to the oil and gas industry and general contractors requiring a tougher utility hose.

<b>SAFETY FACTOR</b>	4:1
<b>TEMPERATURE</b>	-20°C to +80°C
<b>MARKINGS</b>	Yellow cover with stripe stating D924 Nitrogen Hose along length Other outside colours and markings available with very quick lead times.
<b>COIL LENGTHS</b>	20 metres

SIZE (mm)	OD (mm)	WP (bar)	COIL LENGTH (mtrs)	BEND RADIUS (mm)	WEIGHT (kg/m)
